Subject: July 12th, 2010 Wisconsin Statewide Survey

Wisconsin Political Environment

- **A plurality of the voters (43%) oppose President Obama's nominee, Elena Kagan, to the U.S. Supreme Court (Oppose 43%/Support 41%/Undecided 16%).**
- **After hearing of Elena Kagan's treatment of the military at Harvard, lack of judicial experience and that she will likely be a rubberstamp for Obama's healthcare plan, opposition to her nomination jumps by more than 8 points.**
- **Nearly a majority of Wisconsin voters (48%) would be less likely to support incumbent Democrat Russ Feingold should he support Elena Kagan's nomination.**
- **With few undecided, Russ Feingold holds a 2 point lead over Ron Johnson (Feingold 45%/Johnson 43%/ Other 4%/Undecided 9%).**

Baton Rouge, LA - Based on a Magellan Strategies survey of 1,145 likely voters in Wisconsin, the mood is deplorable. Sixty-seven percent of voters think things in the country are on the wrong track. Despite getting 56% of the vote in 2008, President Obama's job approval is an anemic 41%, while 52% disapprove.

Augmenting Obama's problems in Wisconsin is the fact that a plurality of voters (43%) oppose Elena Kagan's nomination to the U.S. Supreme Court. Voters are less likely to support her nomination on the grounds that as Dean of Harvard Law School she banned military recruiters from campus (55% less likely) and the fact that she has no judicial experience (54% less likely). As voters also learn that she will likely be a rubberstamp for Obama's healthcare plan, opposition to her nomination jumps by more than 8 points.

With potential to shape the outcome of the Wisconsin U.S. Senate race, 48% of voters would be less likely to reelect incumbent Democrat Russ Feingold if he supported Kagan's nomination. Feingold has a 2 point lead over Ron Johnson. Feingold's support is primarily among Democrats (86% Feingold/8%

Johnson). However, he also holds a slight lead over Johnson among Independent voters (41% Feingold/38% Johnson).

Survey Methodology

This survey was conducted using automated telephone touch tone technology. The sample for this survey was randomly drawn from the Wisconsin voter file. The responses were weighted to reflect the voting demographics from the 2008, 2006, 2004 and 2002 election cycles. The 1,145 interviews were conducted Monday night, July 12th from 6 to 8 pm. This survey has a margin of error of +/-2.9% at the 95 percent confidence interval. The margin of error is +/-3.3% at the 95 percent confidence interval.

This survey was commissioned and paid for by the Judicial Crisis Network.
